I have been a friend since I moved here in 1984. We have birdied together many times and gone to the V.A. together. He did not do what his doctor ordered. He could be independent to put it mildly. He kept Bird records since he was young and wrote them down daily. I have many of his records. He has seen over 260 species In Appanoose County and saw most walking since he did not drive. He certainly lived his life simply and I will miss him. Tom Johnson
