I am saddened at Dr Frank's passing. He was our family Doctor while we lived in Greenfield. He always had a smile and a kind word. We were privileged to be able to watch he and Sandy's children when they went to Montana to check out a job. That memory of their children and mine having great adventures together still brings a smile to my face. Prayers of comfort for Sandy and children. He will be missed. Connie (Simon) Marnin

Dr. and Mrs. Frankl moved to our neighborhood on 36th St while he was attending med school. I used to babysit David, Elisa, and Shane, and enjoyed the entire family. I have good memories of their family in the late 1960s and when we had our son years later we named him David, remembering what an awesome little boy their firstborn was. My sincere condolences to the entire family. Connie Carr Fuglsang

I loved working with this man!! Such an incredible amount of knowledge and orneriness rolled into one. One of his "tips" for me was "Do you wanna know what the best diet is? A piece of bread and drink a glass of water. The water swells the bread and then you're full." Had to be true because it was coming out of the mouth of a doctor, right? Prayers to you and your family. How lucky are you all to have had this man in your lives that have touched so many. ❤️❤️❤️

Dr. Frankl was amazing. He always did things above and beyond any one. When I gave birth (accidentally) to my youngest son at home during a snow storm in November, Dr. Frankl came bebopping into the ranch in his vw bug thru the snow to check how I was after Georgie delivered our son. Jay and I were ok but couldn't move for three days because of circumstances of the birth. He helped with the paperwork of getting our son's birth certificate to helping me along with my obstetrician that I had a live birth certificate. He also checked on me in those 3 days (there was 3 to 4 ft of snow, we couldn't go out with new born but he got in) to make sure I was good to go while keeping in touch with the ob with updates. Dr. Frankl didn't have to do that but there he was when needed and did a lot to make sure a person was well and give a sense of certainty of well being that you can depend on. Thank you, Dr. Frankl. You will be missed. Our condolences to the Frankl family. Deborah and George W. McClain

Memories:One Friday, Doc and Butch went to the Marysville, MO Draft Horse sale and stayed overnight in a camper for the Saturday sale. For supper, Doc cooked the steaks and Butch cooked the fried potatoes. As they began to eat, Doc said, "These potatoes have a soapy taste." Butch took a bite of his potatoes and agreed. Butch got up and checked his containers and sure enough, one container had cooking oil and one container had dish soap. Butch had used the dish soap instead of the oil!! They threw out the potatoes and finished the steaks! Doc said, "Next time, we will eat out!"Cindy Stiles

Memory:One day Doc and I went to Missouri to get a load of 4×4×8 bales of hay. When we got back to the farm, the neighbor, Shorty, came over to help us unload the hay. While in Doc's barn, we pushed 2 of the bales off the flatbed trailer. Quietly I said to Shorty, "Let's have some fun with Doc!" So with the next bale, we acted like we were pushing, (but we weren't) Doc was grunting with all his might. Then Doc loudly said, "Boys, 2 old women could push harder!" Shorty and I began laughing! That's when Doc knew the joke was on him!!!Butch Stiles
